All kinds of Musical Instruments at the
pleasure of the Guests. Also a splendid garden
attached with a TEN-PIN ALLEY. The same
superintended by ALEXANDER, who will en-
deavor to give satisfaction to his friends and
Guests.
L. WINTERMAN, Prop.
Reno, April 9, 1876—411

A CARD TO THE PUBLIC.

THE ADVERTISEMENT OF THE CARSON
SOAP WORKS which appears in to-day's
State Journal was composed and written by me
before ever the manager or workman of the Car-
son Soap Works knew what a piece of soap was. I
am surprised at L. S. Greenlaw appropriating an
advertisement written by a person not having
charge of the editorial interests of a certain
portion of our State. Were I connected with in-
stitutions of learning I would not appropriate
the simple composition of a hard-headed son of
toll, endeavoring to advance my own interests.
F. H. MULCAHY,
Carson City, May 12, 1876.

FOR ARIZONA.

THE ARIZONA AND NEW MEXICO EXPRESS
COMPANY'S

NEW FAST LINE

B. H. BRISTOW,

SUBJECT TO THE DECISION OF THE

REPUBLICAN NATIONAL CONVENTION

SENATOR SHARON is going to take up his residence at Belmont, in the late Wm. C. Ralston's elegant mansion.

Mr. J. W. MACKAY, the Bonanza King, sailed on Saturday for Europe with his family. Mr. Mackay will be absent several months.

MAJOR GENERAL McDOWELL, who succeeds Major General Schofield in the command of the Military Division of the Pacific, is expected to arrive on the 20th.

SPECIMENS of the Consolidated Virginia ore that is being worked in the Nevada quartz-mill at the Centennial are eagerly sought for, and much ore has thus been given away, as it was found impossible to refuse to gratify persons who wanted ore from the bonanza.

It has been decided that the banks shall be closed in San Francisco at noon on the 1st of July to 10 A. M. on the 5th, and it is quite safe to affirm that there will be a general suspension of the financial institutions and wholesale houses during that interval.

THE New Orleans *Picayune* thus speaks of our Silver Senator: Senator John P. Jones wears fine diamonds, and his eyes sparkle with humor. He can sing the latest negro melody, recite Joaquin Miller's latest stanzas, play billiards and poker, is an fait in financial metaphysics, and may well be called the American Admiral Crichton.

CHINESE IMMIGRATION.—Attorney General Taft is preparing an opinion on the subject of Chinese immigration, which will shortly be submitted to the Cabinet. He does not see how the general Government can interfere to prevent the landing on our shores of the better class of Chinese, any more than it can prevent the immigration of persons from any other nation. Such a course would be in opposition to the well-established policy of the country of extending a welcome to all immigrants. He has no doubt, however, of the right of the Government to interfere to prevent the immigration of Chinese criminals to this country, or the importation of Chinese prostitutes or Chinese women for immoral purposes.

FARO ON THE COMSTOCK.

How the License System Works—What it Costs To Maintain the Tiger—Swindling Games—Big Winnings and Losses—A New Way to "Beat the Game."

[Correspondence S. F. Post.]

VIRGINIA, June 8, 1876.

That expensive beast the tiger, could not possibly have a more congenial jungle than Virginia. He is not only tolerated, but the best people of the city are on familiar terms with him. The worshipped cats of Egypt were hardly more favored. Judges, lawyers, mining superintendents, and even the virtuous journalists, do not consider it at all necessary to fold secrecy around their somewhat frequent visits to his lair. Faro is one of the recognized and legitimate industries of the town. While the law, it is true, commands that gambling shall be done in a "rear apartment," that does not detract from its respectability. The high licenses which the owners of games are compelled to pay constitute a rich source of revenue to the city, and forms the strongest possible argument with the lawgivers for allowing the tiger to flourish. Mere moral objections are weak by the side of stacks of twenties. It is expected that there will be a strong fight in the next Legislature between the hosts of good and evil, but there is no probability that virtue will be triumphant. The chief

OPPOSITION TO LICENSING THE GAMES Comes from the retail dealers and the restaurants. They complain that instead of paying their bills their customers too often waste their money on the cloth of green. The opposition were inspired with strong hope a few months since by the report that

the bonanza firm had announced to the men in their employ that the first man they saw at a faro table would be discharged. Inquiry, however, failed to confirm this. It had become a common thing for the restaurant men, lodging-house keepers and others to garnish the wages of the miners for debt, and this gave the clerks of the companies so much trouble, running back and forth to the Justice Courts with their books, etc., that the order was given to dismiss any man on whose wages a garnish was placed. The prime cause of impecuniosity among the men being their passion for gambling, however, the new rule bears a little hard on the games, and the enemy thereof are not without comfort. Virginia has at present sixteen faro games, all located on C street, at the rear of the principal saloons. The proprietor of one of the most flourishing faro banks informs me that the

EXPENSES OF RUNNING THE GAMES, Exclusive of license, foot up \$27,040 per year. Three men are employed at each table—two dealers, one of whom acts as "lookout," while the other deals the cards, and a "cass keeper." The dealers get from \$7 to \$10 per day, and the case-keeper \$5. From the 1st to the 15th of the month the time at which the miners are flush, most of the games run three shifts of eight hours each, thus employing six dealers and three case-keepers. After the middle of the month the business slackens, and but one or two of the games run more than two shifts. Each bank pays a yearly license of \$1,000, making the comfortable total of \$25,000.

A POPULAR DELUSION

Prevails that faro is conducted "on the square" in Virginia. The fact that the owners of the game live, as a general thing, in about as handsome houses as can be seen in the city, and that they are themselves behind fast horses on C street and the Geiger grade afterwards, counts for nothing with the gambling Comstocker who invariably has his "system" nearly perfected, and is sure to "bust the game" before long. This ardently longed-for triumph is occasionally achieved. Within the past six months no less than four games have been cleaned out. They were, however, comparatively poverty-stricken affairs, having \$2,000 or \$3,000 capital. Most of the banks now running have a capital of from \$50,000 to \$100,000, and one institution has \$100,000 as a foundation.

THE LARGEST WINNING REPORTED So far this year was made by a teamster who got away with over \$5,000 and left the bank a wreck. On the other hand the losses have been extremely heavy. One well-known gambler here, who would pass anywhere for the respectable father of a prosperous family, has rid himself of \$15,000 at faro during the last four months. This professional does not confine his operations solely to the green cloth. Some six months ago he, with one or two others, laid claim to some ground near the C. & C. shaft which the California was supposed to own, and began sinking for the bonanza. Mackay & Fair didn't approve of this, naturally, but the jumpers were resolute and known to be handy with the pistol. Suddenly our friend, the respectable gambler, bloomed out in gorgeous apparel, sported a new plug hat and cane, and rejoiced in patent leathers. The difficulty was "settled," and now the \$15,000 lies in the cash drawers of the several faro banks in town. Apropos of this gentleman, I heard

A GOOD LITTLE STORY

The other day. He and some other professionals had been losing frightfully, and some desperate step was necessary to raise the wind. A near plot was hatched. Free drinks are a feature of every gambling-room. A waiter takes the orders from the players and brings in the liquors and cigars on a tray. The waiter of the game which this wrecked gambler and his companion had resolved to victimize was heavily bribed to join the scheme. Drinks were called for, the dealer among the rest asking for refreshment. The unfaithful waiter passed the tray to the dealer in such a manner as to cover the cards, and the gambler deftly removed the box and substituted another with a cold deck in it under cover of the tray. In about ten minutes the conspirators won \$1,400, knowing what cards would come up. When about two-thirds of the deck had been dealt the dealer smiled in a sickly fashion and remarked:

"Well, boys, you may as well hand over my box; I see you've got me this time."

There was no anger or hard words. "Anything to beat the game" is considered allowable, and the gamblers walked off with their spoil in peace.

THE PROFITS OF THE FARO BANKS

Are large and certain. The theory is that "spits" are the only percentage of the game over the player. This advantage is calculated to be between twelve and thirteen per cent. A split, I may say for the enlightenment of your non-gambling readers, occurs when two cards of the same denomination—eights, for instance—come out of the box in succession. Half the bets upon the card are appropriated by the dealer. The truth is, however, that the gambler has little or no chance when the owner of the game so wills it. Attached to nearly every bank is a light-fingered genius who knows how

to deal a "hogging game." When a man is winning heavily, and the changing of cards and dealers (in which maneuvers the gamblers—place much faith) do not bring a change of luck, this skilled individual is given charge of the game. By his manipulation of the cards, the unsuspecting player is readily robbed of his coin. The "drunk" percentage is another thing upon which the games rely, and with reason. A seasoned gamster confided to your correspondent the other day that a game which he and one partner conducted for eleven years, cleared in that time over \$500,000. One of the two banks with which Gold Hill is blessed clears regularly every month \$5,000. Yet the average Comstocker feels rather insulted when one who is not to the manner born hints that one does not get fair play at faro.

Remarkable Spiritual Phenomena.

The following is an abstract of a letter written to the editor of the *Banner of Light*, an organ of the Spiritualists, published in Boston, Mass. The signatures are those of Mrs. Paulina W. Davis, Kate Hinds and George Davis. Mrs. Davis is the wife of Hon. Thomas Davis, of Providence, formerly member of Congress:

"A seance was held at the bedside of Mrs. Davis, late in March, and after the usual tests had been given, this message was written on the slate: 'We will not give any molds to-night. You must be here on next Wednesday morning' (this was Friday). Mrs. Hardy demurred a little, and said she 'thought she could not come so soon again.' The reply to this was, 'You must do this for us, we do so much for you.' She then said, 'I don't see any reason for it.' The reply came on the slate, 'You always want the reason for everything; we will, at that time, give the mold of a face, in full daylight, which shall be recognized.' The persons who were to be present were then named. [The remainder may be related in the language of Mrs. Davis:] At the appointed time the little company gathered round my bed. The paraffine was brought in by one of the household, and prepared in my presence before Mrs. Hardy entered the room. This was about eleven o'clock, the noon-tide sun pouring into the windows with unwonted brilliancy. The small table under which the paraffine was placed was set by my bedside, so that I rested my hand upon it. Two ladies and one gentleman occupied the upper end and one side of the table. Mrs. Hardy took her seat at the lower end of the table, where, as I said to her, she would be fully in my sight. It was not many minutes before there was a splashing sound under the table, and in ten minutes it was announced that the work was finished. The shawl was lifted, and there was found lying on the taboret a most wonderful face. After a little examination I recognized it as that of a very dear friend long gone before. The gray hair was tossed off the forehead in his own peculiar style. The nose and mouth were perfection. No sculptor ever moulded such a nose.

On comparison with a water-color miniature in my possession, of the existence of which till that moment, Mrs. Hardy was ignorant, every line and curve of the classic features was found to be correct. The whole thing was evidently as much a surprise and delight to Mrs. Hardy as to any of us, this being the first face that had come to her which had been recognized. Now, knowing as I do by practical experience the difficulties of modeling a face or hand, Mrs. Hardy must be accredited with divine power to be able to accomplish such results with her toes. But as Mrs. Hardy's feet were encased in a neatly fitting pair of laced boots, it would have been impossible for her to have made her toes available. Each person present at this seance is willing to make his or her affidavit to the above statement, and I, who hope soon to join the spirit throng, wish to give my last testimony to spirit phenomena.

AN ERA OF IMPROVEMENT.—The cry of quiet times in Elko is apparently borne out by the facts, judging from the outside aspect of affairs and the absence of any bustle or excitement on our streets. At present three fine brick buildings are in course of construction on Railroad street, and others are to be built during the Summer. Old buildings are being repaired and made "as good as new," numerous dwelling houses are contemplated, and if everything does seem quiet now, the preparations going forward betoken the faith in the future entertained by the people of Elko. Slowly but surely Elko is growing, making ready for the time when the developments of the resources of the county shall place her foremost in the ranks of the prosperous and wealthy cities of Nevada. "There's a good time coming, just wait a little longer,"—*Elko Post*.

THE National Gold Medal was awarded to Bradley & Kuleson for the best Photographs in the United States, and the Vienna Medal for the best in the world.

EMPLOYEES HOSPITAL FUND.—On and after this month the sum of one dollar per month will be deducted from the regular salary of all employees of the Pacific Wood, Lumber, and Flume Company. This money will be used to create a hospital fund to be under the supervision of Supt. Haist, and from which all expenses incurred by accidents, which employees may receive while in the employ of the company, will be paid. Several hundred men are now at work, and the aggregate sum for hospital purposes, by the collection of one dollar per month for each, will be more than ample to carry out the objects intended. Heretofore the company have paid out large sums for the proper care and maintenance of their maimed and sick, and to save such expense, and the better to relieve the wants of unfortunate employees, it has been thought best to adopt the above course. We agree with them in their conclusions.

The river is running full, and is a great deal higher than usual at this season of the year.

RENO.

Notes From a Resident—The Advantages our Town Possesses—Its Climate, Etc.—What the Future Has in Store for us.

RENO, June 14, 1876.

EDITOR JOURNAL.—Having a leisure moment at my command I will state briefly some of the reasons why I have selected the town of Reno for future residence. First—Self-preservation is a paramount duty I owe, not only to myself, but to others who, to some extent, are dependent on me for assistance in the battle of life. Worn down by toil incident to constant devotion to the duties of my profession for many years, a change of residence to a suitable altitude and climate became imperative. I selected Reno as affording the advantages required. Here the altitude is not far from eighteen hundred feet below that of Virginia and situated upon the great line of railroad connecting the extreme east with the extreme west, communication is rendered easy and satisfactory. Through the southern margin of our town the noble Truckee boils, and foams and thunders along, carrying an immense body of crystal water from the everlasting snows of the Sierra Nevada Mountains, and affording a water power second to no other place along the western slope of the Rocky Mountains. It is not unreasonable to predict that the shrewdness characteristic of American and other capitalists will, in the near future, enable them to discover the advantages such facilities afford for a profitable investment of surplus capital. There are two branch railroads in contemplation, as facilities of urgent necessity in connecting this point with Southern Oregon north and Southern California south, and both must necessarily pass through rich mineral belts and inexhaustible forests of the finest timber to be any where found upon the American Continent; but which are valueless at present as they are remote from means of transportation. In addition, immense tracts of non-productive lands will be opened up by these roads for settlement, and profitable cultivation. Moreover, situated as Reno is, in the midst of a beautiful valley, the soil of which is known to be well adapted to agricultural pursuits, stock-raising, etc., a guarantee of prosperity and permanence is afforded to all enterprising people who may feel desirous of establishing permanent homes or business here. The altitude, the purity of air and water, and the surrounding scenery; her vegetable gardens, young and prosperous orchards, and verdant fields and meadows, all conspire to fill the attentive beholder with admiration. Every thing considered, it is hard to conceive what more is necessary to create an interest in our young town, on the part of the man of business, or cheer the drooping spirit of the tardy convalescent, or lingering invalid. I can reasonably imagine, the day is not remote, when a more direct communication with our great mining camp, Virginia, through the agency of a narrow gauge railroad, will enable business men of family to select Reno as a suitable and convenient residence, where health can be guaranteed, and facilities for the education of their children, inferior to no other locality, can be obtained. For these, among many other reasons, I have determined to pass the remaining years of my life in this lovely valley. Your ready perception will enable you to appreciate my motive in coming to my present conclusion.

Very Truly Yours, EUREKA.

Narrow Escape.—A day or two since Belle, the little daughter of W. H. Tredway, got hold of some concentrated lye, and child-like, put it in her mouth. In a short time her lips and mouth were badly swollen and burned. Mr. Tredway washed her mouth out with vinegar and while it momentarily increased her pain, it resulted in staying the damage and weakening the lye. A doctor was called in, who stated that it was a very narrow escape, for had any of it gotten into her throat or stomach it would have certainly caused her death. Belle is improving rapidly, but her mouth is still very sore.

The friends of the Methodist Church are requested to meet to-night at the church to make arrangements for a festival next week Wednesday.

TELEGRAPHIC NEWS.

EASTERN DISPATCHES.

The Convention.

CINCINNATI, June 14.

The National Convention of the Republican party met at noon to-day in Exposition building. The attendance was greater than at any previous gathering of the party, and embraced the most noted men in its ranks. The number of colored delegates present caused some surprise. Among them were Congressmen and ex-Congressmen from South Carolina, Alabama and other Southern States. The delegates were admirably grouped upon the floor, facing the stage. The New York men occupied the left center. On their right were the New England seats, formed in single file, Maine at the head and Rhode Island in the rear, with Iowa immediately behind her. To the left of New York, and fronting the stage, and behind her the Morton men of Tennessee, Missouri, Texas and Georgia. To the left again came Kentucky and the Carolinas, with Virginia bringing up the rear. The territorial delegates and those from some of the petty States were tucked away in the rear.

The Latest.

CINCINNATI, June 14.

The *Commercial* this morning concedes the nomination of Blaine. It, however, gives him but 263 votes on the first ballot. Its other estimates are: Conkling 90, Bristow 118, Morton 140, Hayes 48, Hartranft 58, Jewell 10, Washburne 3, Chandler 1, and the Great Unknown 1. The defection in the Pennsylvania delegation is more serious than indicated yesterday. Cameron's leadership is renounced, and there are 44 votes for Blaine when they will do him any good.

Hint to Prevent Blaine's Nomination.
NEW YORK, June 14.

A *Herald's* Washington dispatch states that the leading Democrats in Congress say there are matters behind which will be brought out on Blaine if he should be nominated that would prove fatal to him. One of these gentlemen said the Republican party could not elect Blaine. He spoke candidly, and enjoys a reputation for always acting honorably, even sometimes at the expense of political advantage. J. B. Stewart makes a statement which is at variance with the testimony of Green the witness examined in relation to Blaine's corrupt receipts of fifteen bonds of the Kansas Pacific Railroad. Dr. Verdi says that Blaine had a good night and feels very much refreshed this morning. Blaine says he feels better and relishes his food better than before he was taken sick.

WESTERN DISPATCHES.

Arrest of Leland Stanford and E. H. Miller—Small Pox.
SAN FRANCISCO, June 14.

Leland Stanford and E. H. Miller, President and Secretary of the Central Pacific Railroad Company, were to-day arrested on warrants issued some days ago on complaint of J. R. Robinson, a stockholder of the company, for refusal of the defendants to exhibit the books and accounts of the company. Both were released on bail.

The small-pox, which a week ago seemed to be dying out, has apparently taken a new lease of life. On Sunday four cases were reported, on Monday one, on Tuesday two, and this morning seven, of which five were in one family. All exhibit a mild type of the disease except one, a Chinaman who died this morning. The cases are pretty well scattered around town. No other deaths are reported.

We understand that a majority of our merchants are not discounting trade dollars at 10 per cent. They only discount them at regular bank rates, which is about 7 per cent.

DISMISSED.—The four men under arrest at Verdi have been released. District Attorney Cossitt found there was nothing in it and ordered the case dismissed.

LITTLE SORRY.—When the stock report was received yesterday noon we thought the bottom had entirely dropped out of the market. But toward evening they all rallied.

MINING OUTFIT.—Kelly, Tompkins, Seaton & Co. left for the Pyramid Lake mines yesterday morning. Their invoice of grub for the round trip consisted of 10 gallons whisky, 3 pounds crackers, 1 pound butter, 1 pound cheese, one box sardines, 2 loaves bread, 3 bottles brandy cocktails, 2 large onions, 1 bottle pickles, 2 bottles Sausserain wine bitters, 3 pounds new potatoes, 2 pounds porterhouse steak, 1 shot gun and plenty of amusement. We publish this in order to give prospectors an idea of what they need.

BLIND TOM will be here to-morrow night. A great many have already engaged their seats. Call around at the postoffice and reserve yours. Such a musical prodigy as Tom we shall probably never see again.

A CROQUET ground has been fitted up at Steamboat, and that favorite amusement is now freely indulged in by the patrons of the Springs.

ASSESSMENT.—An assessment of \$1 per share was levied by the Crown Point Mining Company, delinquent on the 18th of July.

Eighty-three thousand dollars were received at the State Treasury from the Virginia mines Monday. The State Treasury was empty. It can now pay all liabilities.

Our efficient Recorder, John B. Williams, was the recipient of a surprise party last night. Much pleasure was caused by this happy gathering.

Just look at the new advertisement of Grey & Isaacs. In eloquent terms and more eloquent figures they tell what they are doing. Read it.

IN TOWN.—Governor Bradley was in town yesterday; also Mr. D. A. Bender, one of the City Fathers of Carson.

MR. KEMP begs leave to state to the residents of Reno, and vicinity, that he is prepared to take Photographs of every description, including views of houses, horses, and equestrian of all kinds a specialty. Satisfaction guaranteed in all cases. Flying Photograph Gallery, opposite the Opera House.

WANTED to rent for one year, a decent small sized dwelling.
* BUDDEX, Photographer.

FOR RENT.—After June 15th, a large shop will be for rent. For particulars inquire of
10-36 L. WINTERMANTLE.

FOR SALE.—A span of draft mares. One six and the other eight years of age, and sound in all respects. Weigh 1,300. Inquire of John Hoy.*

HELLOA MARY, where are you going? Why Alice, I am going where everybody goes, to the Great Flying Galley to have my pictures taken. Wait one minute, until I take down my crimps, and don my pull-back, and I will go with you.

PROMOTE HEALTH AND THRIFT OF YOUR POULTRY.

This hot weather by using
TODD'S TONIC FOOD
—AND—
MAGIC ELECTRO FUMIGO.

The food stimulates egg production, and prevents disease, and the fumigo is a dead shot to Lice, Chiggers, Roup, Canker, etc. Having tested these remedies I can recommend them and having more than I need I can spare a small quantity.

Tonic Food, per package, 25 and 50 cts.
Fumigo, per quart, 50 cts.
Jels-1m GEO. W. FITCH.

PIONEER BARBER SHOP.—Messrs. Enkle & Morris are still at the old stand. Three first-class artists can always be found on hand, who are second to none on the Pacific coast. There is nothing so luxurious on a warm Summer day, than to sit under the manipulations of one of these artists. If you are troubled with dandruff, have a headache, or a fit of blues, an application of our justly celebrated "Tonic Magnif" will remove the same as if by magic. Ladies and children wishing anything in the line of hair cutting and shampooing can be waited upon at their residence by Prof. Morris, who is no novice in the business. Hair restoratives, hair oils, bay rum and everything appertaining to the business always on hand. Give us a trial.
J2-1m ENKLE & MORRIS.

APPLICATION FOR PATENT.

(Notice No. 308.)
U. S. Survey, No. 40.
U. S. LAND OFFICE, CARSON CITY,
Nevada, April 8th, 1876.
NOTICE IS HEREBY GIVEN THAT THE

Golden Fleece Gold and Silver Mining Company,
A corporation existing and organized under the laws of the State of Nevada whose postoffice address is Reno Nevada has this day by T. K. Hyman, its President and duly authorized agent made application for patent for three hundred and thirty (330) acres of the Golden Fleece Lode, bearing gold and silver, together with surface ground six hundred feet in width, for the convenient working thereof, situated in the Peavine Mining District, County of Washoe, State of Nevada, and designated on the official plat on file in this office as U. S. Survey or Lot No. 40. The entire location of said Gold and Silver Lode and Silver Mining Company's claim, embracing within said original notice of location that portion now in conflict with the Cable Cons Gold and Silver Mining Company's claim, U. S. Survey No. 37 and to which the said Golden Fleece Gold and Silver Mining Company applicant herein, claims the right of possession and ownership in virtue of a compliance with the mining rules, regulations and customs by itself and grantors, but to which said ground now in conflict with the Cable Cons G. & S. M. Co. no patent is sought to be obtained in this application, is more particularly described as to its location and bounds at the surface by the official plat and field notes of the U. S. Survey or Lot No. 40, as follows: viz Beginning at a post marked No. 1 U. S. Survey No. 40 situated in ravine about 200 feet southwesterly from the mouth of the Golden Fleece Lode and where the line bears the S. 30° E. for the east line of sec. 24 T. 20. N. R. 18. E. M. D. V. N. 64deg 20min E distant 103 feet thence running east course S. 34deg W at 1363 feet intersect east boundary of the Cable Cons G. & S. M. Co. U. S. Survey No. 37 at 1600 feet to post No. 2, thence running S. 30° E. of U. S. Survey No. 37 S. 31deg 4min L distant 237 feet a pine tree in diam 24 in. S. 48deg W distant 107 feet thence running 2nd course S. 54deg W at 300 feet to south center post at 31 feet intersect west boundary of U. S. Survey No. 37 at 100 feet to post No. 3, thence running S. 30° E. of U. S. Survey No. 37 S. 31deg 4min L distant 237 feet a pine tree in diam 24 in. S. 48deg W distant 107 feet thence running 3rd course S. 34deg W at 1363 feet intersect east boundary of the Cable Cons G. & S. M. Co. U. S. Survey No. 37 at 1600 feet to post No. 4, thence running S. 30° E. of U. S. Survey No. 37 S. 31deg 4min L distant 237 feet a pine tree in diam 24 in. S. 48deg W distant 107 feet thence running 4th course S. 34deg W at 1363 feet intersect east boundary of the Cable Cons G. & S. M. Co. U. S. Survey No. 37 at 1600 feet to post No. 5, thence running S. 30° E. of U. S. Survey No. 37 S. 31deg 4min L distant 237 feet a pine tree in diam 24 in.
